

Dear Parent:

As of July 1992, all schools are required to notify students and parents/guardians of the right to decline to participate in any education project involving **dissection** of vertebrate animals.

We are planning to do the following dissections in class during the academic school year and we would like your permission for your child to participate:

AP Biology: eye dissection

Biology 1: starfish, grass frog, earthworm

Should you and your child elect not to participate in this activity, alternate education project possible involving the use of the computer.

Please complete the following and have your child return this form to me.

Sincerely,
Mary Ann Buchanan

- I request that my son/daughter participate in the above listed classroom activities.
- I would prefer that my son/daughter **not participate** in the above listed activities. Please provide an alternate education project in place of this activity.
